Exercise 2: Prompting for a 200-word Blog on AI in Healthcare

Aim

To design zero-shot, one-shot, and few-shot prompts for generating a 200-word blog on "Applications of Artificial Intelligence in Healthcare."

Algorithm

- Define the blog topic.
- Create a zero-shot prompt with the topic and word limit.
- Create a one-shot prompt with a sample blog.
- Create a few-shot prompt with multiple writing examples.
- Display the three prompts and compare their instructions.

Python Code

```
topic = "Applications of Artificial Intelligence in Healthcare"

zero_shot = f"""
Write a 200-word blog on "{topic}".
Use simple language and include an introduction,
applications, benefits, and conclusion.
"""

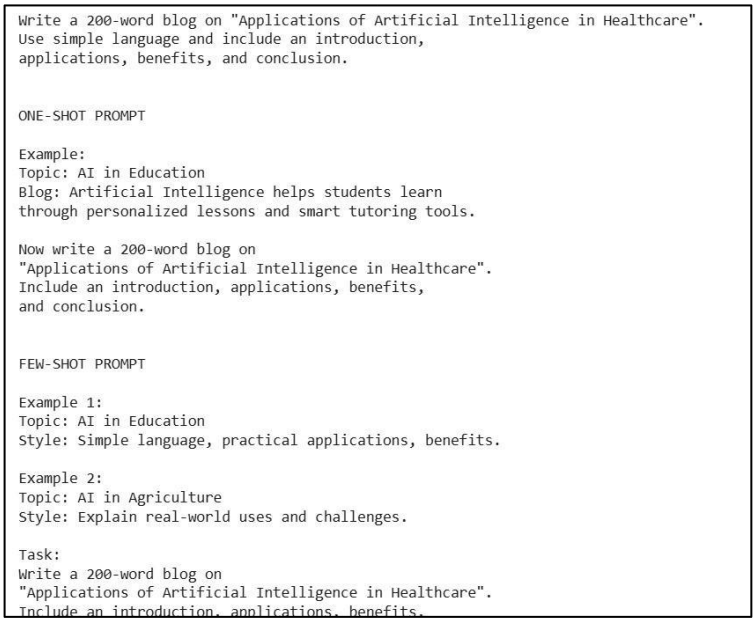

one_shot = """
Example:
Topic: AI in Education
Blog: Artificial Intelligence helps students learn
through personalized lessons and smart tutoring tools.

Now write a 200-word blog on
"Applications of Artificial Intelligence in Healthcare".
Include an introduction, applications, benefits,
and conclusion.
"""

few_shot = """
Example 1:
Topic: AI in Education
Style: Simple language, practical applications, benefits.

Example 2:
Topic: AI in Agriculture
Style: Explain real-world uses and challenges.
```

Sample Output

```
Write a 200-word blog on "Applications of Artificial Intelligence in Healthcare".
Use simple language and include an introduction,
applications, benefits, and conclusion.

ONE-SHOT PROMPT

Example:
Topic: AI in Education
Blog: Artificial Intelligence helps students learn
through personalized lessons and smart tutoring tools.

Now write a 200-word blog on
"Applications of Artificial Intelligence in Healthcare".
Include an introduction, applications, benefits,
and conclusion.

FEW-SHOT PROMPT

Example 1:
Topic: AI in Education
Style: Simple language, practical applications, benefits.

Example 2:
Topic: AI in Agriculture
Style: Explain real-world uses and challenges.

Task:
Write a 200-word blog on
"Applications of Artificial Intelligence in Healthcare".
Include an introduction, applications, benefits,
```

Result

Three prompts were designed for blog generation. Zero-shot provides instructions, one-shot demonstrates a writing example, and few-shot provides multiple examples to guide the output style.
