Exercise 4: Professional Leave Email Using Prompting Techniques

Aim

To design zero-shot, one-shot, and few-shot prompts for generating a professional leave request email due to illness and compare their tone, grammar, formatting, and completeness.

Algorithm

- Define the purpose of the email.
- Create three prompts using different prompting techniques.
- Include the recipient, subject, reason, and leave dates.
- Display the prompts.
- Compare the resulting emails for professionalism and completeness.

Python Code

```
zero_shot = """
Write a professional email to my manager requesting
two days of leave due to illness.

Include a subject, greeting, reason, leave dates,
polite closing, and placeholder for my name.
"""

one_shot = """
Example:
Subject: Leave Request

Dear Manager,
I request one day of leave due to a personal emergency.
Kindly approve my request.

Regards,
Student

Now write a professional email requesting two days
of leave due to illness. Include a subject, greeting,
leave dates, and closing.
"""

few_shot = """
Example 1:
Use a polite greeting and clearly state the leave reason.

Example 2:
```

Sample Output

```
ZERO-SHOT PROMPT

Write a professional email to my manager requesting
two days of leave due to illness.

Include a subject, greeting, reason, leave dates,
polite closing, and placeholder for my name.

ONE-SHOT PROMPT

Example:
Subject: Leave Request

Dear Manager,
I request one day of leave due to a personal emergency.
Kindly approve my request.

Regards,
Student

Now write a professional email requesting two days
of leave due to illness. Include a subject, greeting,
leave dates, and closing.

FEW-SHOT PROMPT

Example 1:
Use a polite greeting and clearly state the leave reason.

Example 2:
```

Result

Three prompts were designed for professional leave email generation. Their generated emails can be compared for polite tone, correct grammar, proper email formatting, and inclusion of all necessary details.
